State Police Officer Moving to Portland

Friends of State Highway Officer John K. Maguire and family are sorry to learn that he has been transferred to Portland, where he will take up his duties on the Portland-Boston highway Nov. 15. They expect to leave in a few days. Mr. Maguire and family came to Bethel from Portland two years ago last spring.

This change is part of a statewide program of moving outlying officers in to the more congested districts due to losses in the personnel of this department. It is believed that as new officers are added to the force Bethel will again have an officer, as the town's location is favorable for much of this work even if the local population is not large.

REPRESENTATIVE OF BRITISH WAR RELIEF TO COME HERE

The ladies of Bethel and vicinity are invited to the home of Mrs. Ralph Young on Saturday, Nov. 8, at 2:30 o'clock, when Mrs. George E. Frye of Augusta will discuss the work of the British War Relief. The women of Bethel and nearby communities have already shown their interest by responding to the call for knitting. This response is greatly appreciated, but we can and should do more since this organization needs the help of every loyal American. This is an urgent invitation to help a great cause.

Rumford Girl Survives Two Mystery Crashes

Miss Gladys Lord of Rumford was found unconscious near the residence of H. M. Farwell, corner of Elm and Railroad Streets, about 11:30 Friday night, where the car she was driving crashed into an electric light pole. The car, a Buick sedan belonging to Dr. Harry M. Wilson, had been left by the doctor in his driveway a short time before. Miss Lord was taken to the Rumford hospital, where she remained unconscious until Monday. Her car, a DeSoto sedan, was found Saturday morning in Gilead near the A. R. Mason & Son farm, where it had struck a guard fence the night before as it was driven toward Bethel.

4-H Club Members Earn as They Learn

Total value of crops, livestock and livestock products, canning, and other articles produced during the past year by Oxford County 4-H Club members was \$10,949, according to Kenneth O. Lovejoy, state club leader.

Among the most important projects, measured in dollar returns, was dairy. Members of 4-H Clubs in this county produced dairy products valued at \$540. Chick raising, another leading project, accounted for \$1689 of the total.

The poultry management project contributed \$834, and the potato project \$989.

Projects relating to homemaking stood high in the list, measured in dollar value or in number of club members participating. In the sewing project, club members made 1387 articles, valued at \$729.

Oxford County 4-H members canned 3904 pints of food, and members in the cooking and house-keeping project prepared 9,439 meals.

These 4-H Clubs are directed by local volunteer leaders, supervised by county agents of the Maine extension Service. The clubs are sponsored jointly by the county farm bureau, Maine Extension Service, and U. S. Department of Agriculture.

Miss Grace E. Lowe became the bride of Henry W. Westleigh of West Bethel, Friday, Oct. 31, at St. Catherine's Rectory, Norway, the Rev. J. Francis Brady officiating, using the double ring service. The attendants were Miss Helen G. Lowe and Robert J. Lowe, brother and sister of the bride.

Mrs. Westleigh is the daughter of Mr. and Mrs. Alister Lowe of Bethel and was graduated from Gould Academy in 1935. She has since been employed at the Bethel Inn.

Mr. Westleigh is the son of Mr. and Mrs. Thomas Westleigh of West Bethel. He is employed in Gorham, N. H.

Refreshments were served at the home of the bride's sister, Mrs. Marshus Philbrick of Bethel including a wedding cake made by Mrs. Philbrick.

After a short wedding trip the couple will reside at West Bethel.

Mr. and Mrs. Royal Hodsden have moved into the Leslie Coburn house on Paradise Street.

RED CROSS ROLL CALL

The American Red Cross will enroll its many members again this coming week, and the Bethel Branch will conduct its annual Roll Call. The services of the Red Cross have been greatly expanded to meet the needs created by the national defense program and the war relief operations abroad. To meet this need the Red Cross is urging a widely increased response to the Roll Call. It is hoped that many Bethel homes will be entitled to a 100% sticker to indicate that all members of the household have enrolled.

The women of the local branch have been working faithfully during the year on much needed supplies, mostly for relief work. The Vice-President reports the following imposing list of work completed: 20 surgical gowns, made by the Congregational Ladies Club; 9 children's dresses, made by the Methodist Ladies' Aid; 48 children's dresses and bloomers; 11 women's dresses; 9 women's skirts; 14 children's skirts; 20 men's pajamas (10 completed, the rest cut out to be made for the next quota); 5 boys' shirts; 50 boys' shirts to be completed by Dec. 31.

In the knitting division, under the charge of Mrs. G. L. Thurston, 104 woolen knitted sweaters for children and men have been completed, including 22 ready to be sent in with this quota. Mrs. Nathan Stearns holds the honor place in this work, having sent in 19 knitted sweaters.

The women, with Mrs. Roy Hamlin in charge, meet in the Legion Rooms on Tuesday afternoon and most of the work listed above has been done there. Some has been done by workers at home. They welcome recruits to their small staff of regular workers, which include some from both West Bethel and East Bethel. Material and patterns are sent from headquarters and the material is cut out and ready for work at the rooms. The large assignment of boys' shirts to be completed by the end of the year calls for a great deal of work.

The list of Roll Call solicitors, under the direction of Mrs. M. A. Gordon, is as follows: Main and Clark Streets, Miss Beatrice Brown and Mrs. Ray York; Mason and Spring Streets, Mrs. Leslie Poore; Gould Academy, Mrs. Fossett; Broad and Paradise Streets, Mrs. Ethel Bisbee; Church and Park Streets, Mrs. Ireland; Mechanic and Railroad Streets, Mrs. Drummond; Vernon Street, Mrs. Ada Conner; Chapman Street, Mrs. Alta Meserve; Mill Hill and Songo Road, Mrs. Ralph Young; West Bethel, Mrs. Carroll Abbott; Elm, High and Summer Streets, Mrs. Milo McAllister; East Bethel, Mrs. W. S. Hastings; Middle Intervale, Mrs. Leslie Davis; Mayville, Mrs. S. S. Greenleaf; Locke Mills Road, Mrs. Carl Brown; Grover Hill, Miss Gwendolyn Stearns.

Children's Book Week Observed at Library

Children's Book Week, Nov. 2-8, is being observed at the Bethel Public Library with a pleasing display of old favorites and enchanting new books for juvenile readers. The theme seems to be love of country. The scenes are predominantly American. There are tales from other lands but this year they are in the minority.

To judge by the patronage which it receives, both grown-ups and children are fully appreciative of our well-stocked library to which are constantly being added all the best in fiction and non-fiction for adults and the finest of children's books.

Mrs. Farwell, the librarian, finds the school children especially responsive to the privileges the library offers.

Th following letter and rhyme written to and for her show both youthful gratitude and enthusiasm. Bethel, Maine, Oct. 28, 1941

Dear Mrs. Farwell, The people of the seventh grade enjoyed the book "Skipper, the Guide Dog." We appreciate your letting Miss Stearns have the book until she had finished it.

Sincerely yours, Rebecca Philbrick Seventh Grade

BOOKS ARE MAGIC Books are magic, which we read, To tell us about brave pirates' deeds.

Of good men, bad men, men of old, And Indian exploits, brave and bold. Sometimes I wish, and wish again, I could be like those brave men! An original poem by Lynwood A. Wheeler, Grade 7.

American Education Week will be observed in the schools of the Bethel Union by inviting all parents and citizens to visit the schools this coming week.

Home Guard Company Name Chosen

Captain Frank A. Bean of Bryant Pond was present at the regular drill meeting of the local Home Guard Monday evening and expressed great satisfaction in the progress of the Bethel volunteers. It was decided to name the company "First Battalion Headquarters Company," subject to approval of higher authority.

The local interest in this project and the newcomers at nearly every drill are encouraging and a good advance in the various phases of training is reported. However, with the object of at least 50 active members, a more lively interest should be shown at once. There is real need of this Guard and the more thorough training is possible only if the full number comes forward at an early date.

Last week a drill was held at Locke Mills with several of their more advanced members and next week a trip to West Paris is planned.

WOMEN'S CIVILIAN DEFENSE MEETING NEXT WEEK

The Junior Guild of the Congregational Church extends a cordial invitation to all ladies in town to attend the local Women's Civilian Defense program which is to be held at Garland Chapel Nov. 12, at 8 p. m.

National and International Problems Inseparable from Local Welfare

It is significant that the most aggressive opposition to Winston Churchill in England has developed from his refusal to open a new front in Europe. The demand for this has largely come from Labor M. P.'s, but they have been given support of a number of Conservatives and Liberals. The feeling is growing in many quarters that Hitler's Russian campaign has for the first time, sufficiently diverted his energies and resources so that it may be possible to carry the war to Germany.

The military problems involved in this are enormous, and no layman is in a position to discuss them. There is, however, a problem of morale involved which is of the utmost importance. Unrest in the nations which Hitler has occupied is obviously growing. The horrible toll of executions in occupied France is evidence of that. Hitler's henchmen aren't killing French citizens for fun, but because they endanger the purposes and policies of the Reich. It is argued that if the Allies could start an aggressive military campaign against Hitler on the continent the subjugated peoples would be immensely encouraged and would increase the extent and scope of their opposition.

There is little doubt but what the argument has validity. If, for instance, British troops could effect a landing on French soil and push the German back, the democratic world would take it as a miraculous turn. But it is apparent that Mr. Churchill and his high command even though they realize this believe that the time is not right and here again, a morale as well as a military problem is involved.

The hard truth is that England has had nothing but failure in her land operations against Germany during this war. Her navy and air force have done wonders. Her infantry and her artillery and her mechanized divisions on the other hand, have been completely unable to cope with their German enemies. This is no criticism of the courage or resolve of Tommy Atkins. Kipling's "Thin red line of heroes" still remains. But Britain simply hasn't the equipment and we haven't been able to deliver it to her in sufficient quantity. The German, in my opinion, whether you like it or not is still the best in the world.

England's setbacks at Dunkirk and in Crete and Norway tell the story. There soldiers did all and more than could be expected of them. But a man with a gun in his hand is no match for a tank. A trooper with a few months' train-

ing can't equal a ruthless superbly trained soldier of the Reichswehr with seven or more years of intensive military development behind him. The finest British pilot can't fly long in a sky which holds twenty Luftwaffe planes for each one of the R. A. F.

Mr. Churchill's much criticized policy is thus easy to understand. He is apparently conserving all the military resources England can obtain. As he said some time ago, the difficulties Hitler is experiencing in the Russian campaign provide no guarantee that Germany will not attempt a major invasion of the British Isles before long. England is sending planes and tanks to Russia. Mr. Churchill and his advisors know that the British public must not be unnecessarily subjected to the morale-damaging effects which follow a defeat.

On top of that, England has a big job to do in Africa. Here Hitler is weakest. The Italian troops in Africa have proven themselves easily vanquished. And no man can rule the world, as German militarists have written for generations unless he first rules Africa. General Wavell, chief of the British commanders in charge in the East, and rumor has it that the British war office, which is headed by aggressive, Nazi-hating Anthony Eden, is planning a surprise move in Africa, in conjunction with the De Gaulle Free French forces.

In the meantime, the Allies are encouraged by the terrible losses Hitler is taking in Russia. Even if the Soviet claims of killed, wounded and captured to the minimum it is apparent that many of the finest Nazi troops have died in the endless spaces of the U. S. S. R. The hope remains that the news of this will eventually filter home, despite Herr Goebbels' propaganda and the work of the Gestapo terrorists. There is certainly no reason now for believing that the German civilian population will revolt. But a civilian population which is disillusioned and without enthusiasm is of little service to the kind of military machine Hitler must maintain. Those who argue that this war can be won without the dispatch of millions of Allied troops to Europe, have their argument on the supposition that in time the German people will get a bellyful and will

THIS WEEK IN DEFENSE

Summarizing Information on the Important Developments of the Week Made Available by Official Sources

Aid to Britain and Russia

OPM Materials Director Batt said in a radio speech from Washington he had returned from the aid conference in Moscow with the thought that the "sensible, sane and selfish" course for the U. S. "is to deliver the goods—everything we can possibly provide—into the hands of the people who can use them... against the enemy while he is still thousands of miles from our shores..."

The Maritime Commission announced delivery of the first of 60 emergency cargo boats being built for the British. The President signed the \$5,985,000,000 second lend-lease appropriation and created in the Office for Emergency Management a Lend-Lease Administration with Edward R. Stettinius Jr., as Administrator.

Pan-American Relations

The Export-Import Bank authorized a \$6,000,000 credit to the Banco Obrero, Venezuela, and announced special credit arrangements with banks in Latin America will be made to facilitate trade among the nations of the Western Hemisphere to enable the American Republics to procure essential requirements of their resources and stabilization of their economies.

Prices

The Labor Department reported its daily price index of 28 basic commodities rose 1.3 percent during the week of October 17 to 24 bringing prices in the index to more than 34 percent higher than a year ago.

Price Administrator Henderson announced a comprehensive program to stabilize prices of all products made of copper, brass, or their alloys. He also issued a price schedule on glycerine and bed sheets. Sheet prices will be approximately 15 percent below current market levels Mr. Henderson said.

Facts and Figures

Archibald MacLelish, Librarian of Congress, was appointed by the President to direct a new Office of Facts and Figures to "formulate programs designed to facilitate a widespread and accurate understanding of the status and progress of the national defense effort." The new office will advise Government agencies how they can best present information and data on national defense to keep the public fully informed.

Employment and Wages

Secretary of Labor Perkins reported average hourly earnings of factory wage earners were 74.5 cents during August. Federal Security Administrator McNutt announced 545,700 jobs were filled through the State employment services during September—55 percent more than last year. Wage-Hour Administrator Fleming said he favored a program of wage stabilization which would not freeze wages at present levels, but would first ad-

just existing differences between one plant and another doing the same work and make provisions for adjustments to increases in the cost of living.

Labor Disputes

The President directed Secretary of War Stimson to take possession of and operate the Bendix, N. J., plant of Air Associates, Inc., after a dispute developed at the plant over the reinstatement of strikers on the recommendation of the Defense Mediation Board. Col. Roy M. Jones, in charge of 2,100 soldiers who took over the plant, said, "employees desiring to return to their jobs will be given all necessary protection..."

The defense Mediation Board began hearings on the labor dispute involving captive coal mines in the Appalachian area after the United Mine Workers voted to accept the President's request to return to work in the interest of defense pending settlement of the dispute. The U. S. Conciliation Service reported settlement of 30 other labor disputes.

Defense Housing

Defense Housing Coordinator Palmer reported 1,285 publicly-financed defense homes were completed during the week ended Oct. 25, bringing the total ready for occupancy to 46,572. Homes being built or already completed under the defense program now number 101,785.

Dental Care for Selectees

Lt. Commander C. R. Wells, chief dental officer of the Selective Service System, said in a speech in Texas that the program to rehabilitate selective service registrants with physical defects that can be remedied will begin with the treatment of 100,000 men for dental defects. The men will be treated by dentists in their own communities at the expense of the Federal Government.

Civilian Morale

The Office of Education announced that in cooperation with the Office of Civilian Defense it will develop a School and College Civilian Morale through which "hundreds of thousands of teachers, educational leaders and citizen volunteers" can participate in the defense program by organizing "Freedom's Forums" in schools, colleges, clubs, churches and libraries to discuss national problems "with respect to facts and without hysteria."

Civilian Supply

Priorities Director Nelson ordered a 35 percent reduction in the

use of steel by non-mechanical ice refrigerator manufacturers and a 17 percent cut in production of domestic washers and ironers. Mr. Nelson said that in one year 32,000 tons of steel would be saved by the latter cut.

Army

Secretary of War Stimson announced that specially selected Signal Corps reserve officers are in England studying air-raid defense prior to assignment with the U. S. Army Aircraft Warning Service. Mr. Stimson also announced the first battalion of the 87th Infantry Mountain Regiment—first regiment designed for mountain warfare—will be organized at Ft. Lewis, Washington, this month. The regiment will be made up of men specially skilled in mountain climbing and ski and snowshoe travel.

Ships

The Maritime Commission launched two more Liberty ships. The Navy announced the 368 craft in its small-boat building program are being built by 76 firms throughout the country to spread the work as far as possible.

Power

Priorities Director Nelson inaugurated a power conservation program calling for curtailment of the use of power by non-defense industry in Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina and Tennessee unless heavy rains end the power shortage in these States before November 10. Program would prohibit use of power for advertising signs, shop windows, and night athletic events.

THURSDAY, NOVEMBER 6, 1941

It was no accident that the men who made the American Constitution singled out just one private business—the press—to guarantee it freedom.

They knew that the truth makes men free.

The revolution which is now tearing the world from its civilized roots is a crisis in journalism. The murders and concentration camps of dictatorships are unspeakable, what makes Nazism and its friends truly unspeakable is their corruption of the minds of men from within.

By lies and frauds they lead men to agree to their own enslavement. By the destruction of free journalism, they lead men even to desire their own enslavement. Because the press is dead in Europe, its people are slaves.

This is the real poison of our times. The only antidote is truth. Truth, however unpalatable. Truth, not in a time capsule, but in the ears of the people.

Unless they know the truth, the people cannot govern themselves. And if they cannot govern themselves, dictatorship and slavery are inevitable.

That is why the men who made the American Constitution gave the people the right to know the truth. They guaranteed a free press and charged that press with the responsibility of presenting the truth. A fighting right and a fearful responsibility.

The American press is free—from the choking hand of government control, free to buy the best talent in the world, free to guard the liberties of a free people. Free also to commit moral and intellectual suicide, free to be vicious, unfair and venal, free to seduce the people into their own enslavement. That is the latitude of a free press.

Since it is run by human beings and not angels, the press makes mistakes. But censorship is not the remedy because it always raises more evils than it solves. The only control of a free press in a free country must be that of the people. They alone can be trusted with the job—Council for Democracy.

Shakespeare says, we are creatures that look before and after; the more surprising that we do not look around a little, and see what is passing under our very eyes.—Carlyle.

Life is made up of sobs, sniffling and smiles, with sniffling predominating.—O. Henry.

Loose now and then a scattered smile, and that will I live upon.—Shakespeare.

Mr. and Mrs. Russell Cole, Harry Taylor and Howard Taylor attended the funeral of Ed Griffin at West Paris, Friday.

Mr. and Mrs. Joseph Simard of Lewiston were in town, Sunday.

THE RANGER'S COLUMN

H. C. Waldo

—Androscoggin District Ranger—
White Mountain National Forest

COOS COUNTY Fire Warden's Association held its annual meeting at the Groveton Grange Hall on the evening of Oct. 29. Joseph B. Pike, Associate Forester of the Division of State and Private Forestry, U.S. Forest Service, was the guest speaker. His topic The Private Forestry Outlook in Northern New England, was very interesting and informative. Mr. Pike is a native of the State of Maine and formerly located at Lancaster, N. H.

ANNUAL PROPERTY inventory time is now at hand. The Ranger and guards are checking every outlying station. All property must be accounted for at least once a year. Property is currently charged to the individual using it, who must return it in good condition, ordinary wear and tear excepted. Items lost or damaged due to negligence must be paid for by the responsible person.

HUNTERS are reminded that although rains have drenched the woods during the past few days, areas which have been closed to use during the past summer are still closed and will remain so until now covers the ground. These areas are posted with special yellow posters reading "The National Forest Land behind this sign is closed to public entry."

The only area so posted on the Androscoggin District of the White Mountain National Forest is west of the Jefferson Notch Road. Hunters wishing to hunt in other portions of the forest may secure a map showing the closed areas at any of the Ranger offices.

SKI SEASON is approaching. Three skiers visited the Ranger office Saturday in the pouring rain to inquire about skiing conditions in the Tuckerman Ravine. Their car was actually loaded with skis and ski equipment. The Tuckerman Ravine guard had reported eight inches of snow on the daily weather report for Oct. 24, 1941, but the mild weather succeeding this left many bare spots.

The SNAPSHOT GUILD

PATTERN PICTURES

Don't overlook pattern pictures when you're out snapshotting. They often result in fine pictorial studies, adding variety and spice to your picture collection.

GENERALLY speaking, every good snapshot contains some sort of pattern. In many cases, it is just a mere suggestion—perhaps just two or three objects of similar shape that harmonize with each other. In these shots you "feel" the pattern without consciously seeing it—and the picture satisfies the eye because it contains a simple, orderly arrangement.

When we use the term pattern picture, however, we usually think of a shot in which pattern or design is quite prominent—often times the entire theme. Doubtless you can recall seeing pictures of this type—rows of trees all evenly spaced, shadow patterns on brick pavements or streets, or interesting effects similar to the one shown above.

Subject matter for pattern pictures is all around you. At the vegetable market, for example, you have probably seen large trays of apples and oranges, stacks of melons, bushels of potatoes in regular rows, and many others. These symmetrical arrangements make perfectly swell pictures for they have a natu-

ral rhythm which can be easily captured with any camera.

Objects that cast shadows, such as ornamental iron grille-work or a stairway rail also create interesting patterns. At certain times of day, the shadow form of a flower or plant may be cast on a smooth surface—and if you include both in a snapshot, you'll have a pleasant arrangement that heightens the effect.

You can create many patterns yourself, by using ordinary objects. Arrange eggs, golf balls, spools of thread, sugar cubes—all sorts of things—against a plain background, on a table top, or on the floor in interesting designs, circles, ovals, diagonals, and many other geometric shapes, and you have patterns. Then place Photoflood lights to obtain fascinating shadows, and take the pictures from a "looking down" angle.

When you find a number of objects all of one kind, then you have material for a true pattern picture. It's fun to hunt designs with your camera, and such pictures have an unusual "different" quality offering new interest to you and your album.

BANCROFT-MANN

A charming wedding was solemnized at the First Universalist Church of West Paris at 4 o'clock Thursday afternoon, when Miss Maxine Mann, daughter of Mr. and Mrs. Edwin J. Mann of West Paris, became the bride of Ronald P. Bancroft, son of Mr. and Mrs. Eugene V. Bancroft of Auburn. Rev. Eleanor B. Forbes performed the ceremony, for which music was furnished by Mrs. Sanger M. Cook of Pittsfield, a friend of the bride's family, who played the organ, and Alexander Chapman of Portland, formerly of England, as vocalist.

The church was beautifully decorated for the wedding, with a bank of lilies at the altar flanked with four candelabra and baskets of white pom-pom chrysanthemums. The bride wore a lovely gown of white satin with a lace bodice, the pattern of which was traced with seed pearls. Her long tulle veil fell from a coronet of seed pearls and she carried a bouquet of white gardenias.

Attending her as matron of honor was her sister, Mrs. Bruce K. Brown of South Paris, who wore rose-beige taffeta, fashioned with a long bodice, sweetheart neckline short puffed sleeves and a full skirt. She wore a hat to match and carried a bouquet of blue delphinium and yellow roses.

Gowns in exact duplicate were worn by the maid of honor, Miss Ruth Bowman of Falmouth, Mass., and the bridesmaids—Mrs. Odell C. Rich Jr. and Mrs. Earle Palmer Jr. of West Paris, also sisters of the bride; Miss Ruth Ann Frost of Westfield, N. J., and Miss Margaret Bancroft, sister of the bride-

groom. Miss Bowman's gown was dusty pink, those of the bridesmaids were blue, and all wore hats to match.

Little Carolyn Collamore of Damariscotta, niece of the bridegroom, served as flower girl. She wore a dusty pink frock with wreath of roses in her hair and carried a basket of rose petals which she strewed in front of the bridal party during the march down the aisle.

Mr. Bancroft was attended by Bruce K. Brown of South Paris as best man and by Frank Scott, Freeman Berry, Wilfred Benoit, all of Auburn, Odell C. Rich Jr. and Earle Palmer Jr. of West Paris as ushers. They wore formal morning clothes.

The bridegroom's gift to the bride was a pearl cluster ring and she gave him a black onyx ring. The bride's gift to her matron of honor was a gold and topaz bracelet; to the maid of honor, a silver necklace; and to the bridesmaids and servers, gold pins. Mr. Bancroft gave his best man an unusual watch fob and the ushers received leather tobacco pouches.

About 150 guests attended the wedding reception held later in the afternoon at the Mann home.

Mr. and Mrs. Bancroft went to Baltimore, Md., on their wedding trip, and after Nov. 11 will be at home at 57 Goff St., Auburn. For traveling the bride wore a wool suit of R. A. F. blue with lynx collar and black accessories, and her corsage was an orchid.

Mrs. Bancroft is a graduate of Maine Central Institute, Pittsfield, and Lasell Junior College, Auburn, Mass. Mr. Bancroft is a grad-

Gould-Newport in 7-7 Tie

Gould Academy's surprising team finished its 1941 schedule last Saturday by playing to a 7-7 tie at Newport, Vt. The Vermonters had all the advantage in the first period as they scored the first touchdown and rushed the extra point. From then on however, the "Blue and Gold" look command and were never threatened again. However, the local boys had to wait until the final period before tying the score.

The Gould team had things much their own way during the second and third periods when they ran up many first downs and produced long marches only to fumble twice on the second yard line with a first down timing up. Even these discouragements did not keep the Academy eleven from finally pushing over the pointers that deadlocked the game.

The team has made a very creditable showing for the season with three victories, two defeats, and one tie.

Today's popularity of Doan's Pills, after many years of world-wide use, surely must be accepted as evidence of satisfactory use. And favorable public opinion supports that of the able physicians who test the value of Doan's under exacting laboratory conditions.

These physicians, too, approve every word of advertising you read, the objective of which is only to recommend Doan's Pills as a good diuretic treatment for disorder of the kidney function and for relief of the pain and worry it causes.

If more people were aware of how the kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed.

Burning, scanty or too frequent urination sometimes warn of disturbed kidney function. You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, pinpoints under the eyes—feel weak, nervous, all played out.

Use Doan's Pills. It is better to rely on a medicine that has won world-wide acclaim than on something less favorably known. Ask your neighbor!
